

6/3/09

After an attempted daytime break in at my residence, while my daughter was home & the alarm was not armed; I realized that I had no idea who might be on my property at any given time. Even if the alarm sounded, the trespasser would be long gone by the time the police arrived. I then had Web Surveillance install cameras around the perimeter of my home.

Since installing the cameras & being able to monitor them over the internet, I now have peace of mind knowing that anyone that goes near my home will be caught on camera.

The quality & service given by Bassam & Web Surveillance was so great, that I had them replace my existing camera system at my business and a home in Florida! The system that Web Surveillance installed is very user friendly, & Bassam made sure that I understood how to use it. I can also monitor activity from my windows based cell phone!

Whenever I need support Bassam is there. He is very good at what he does & I would recommend him to anyone.

Sincerely,

Joseph C. Lucas
