Web Surveillance, Inc.
19100 Holland Road
Brook Park, Ohio 44142

Dear Mr. Saliba,

Often we take the time to fire-off a letter when we are frustrated with a company's performance. Less often do we take the time to applaud a job well done. I would like to take this opportunity to applaud your team. Two thumbs up, not only were your products top quality and well researched but your level of service - unrivaled.

During a Chamber meeting in 2006, your name happened to come up when I was asking for personal referrals. A city official recommended that adding Web Surveillance, Inc. into the bidding process was a must. As you know, the bidding process for the surveillance portion of our new headquarters was complex, and the schematic, deadlines and overall expectations too challenging for the average security company.

You not only won the bid, but you also won our respect and the most powerful advertising tool available, word of mouth. You were recommended to us and we will certainly pass the recommendation on to colleagues searching for like products and services.

It has been a pleasure working with you and I wish you the best of luck. If a need arises, please feel free to use us as a reference.

Thanks again,

Patricia Miller
CEO
